Letter of Recommendation

The firm of [REDACTED] & [REDACTED] has worked under four consecutive indefinite quantity contracts at [REDACTED] Air Force Base over the past several years and [REDACTED] was project manager on our two most challenging projects under those contracts. The first was the complete renovation of the Base's golf course and the second was the master plan and upgrade of the historic Officers' Housing District.

We were relatively new to military design standards at the time and therefore relied heavily on [REDACTED] for guidance. Even though he is a young man, he has achieved a level of expertise and architectural sophistication more readily found in a person who has been in the business for many years.

We recommend [REDACTED] for the AFIT Master's Program without reservation. Few architects in the service could be more worthy of your attention or able to provide a greater return on your investment.

Sincerely
[REDACTED]
